

QUALITY APPROACH

Since its creation, Marion Technologies is fully focused on customer satisfaction. Our organization is certified by ISO 9001 version 2015 and EN 9100.

Our quality approach is based on different pillars :

1 - A corporate structure

We embrace the principles of quality management developed by ISO to organize our structure : strong customer focus, leadership, continuous improvement, listening partners.

2 - Impulse to innovate

Our research aims to be a model of excellence and we rely on a technological watch and a closed collaboration with research center to remain at the cutting-edge and to deliver innovative solutions.

3 - Product safety as key element

Safety product and quality control is integral to our process. We control raw materials, clean of pollutants throughout the production and precisely characterize your finished products in our analysis laboratory.

Our knowledge and skills are validated by ISO 9001 version 2015 and EN 9100 certifications.
